## GEOLOGICAL SURVEY HAS NEW CHIEF

Appointment of Dr. Waldemar Lindgren by Secretary of Interior Fisher Portends Great Good for Service.

Washington, D. C., Nov. 20.—Secretary of the Interior Fisher announced last Friday, the appointment of Dr. Waldemar Lindgren as chief geologist of the United States geological survey. The position had previously been tendered to Dr. Alfred H. Brooks, chief of the Alaska corps of the survey; but Dr. Brooks had declined it, feeling that the best interests of the Alaska work demanded his continuation in that special field.

In the selection of Dr. Lindgren, the western states and particularly our metal miners, are subject to hearty congratulation. Doctor Lindgren, who is a graduate of the Freiberg school of Mines in Saxony, has been engaged in geologic work for the government since 1883. During all this period his work has been confined almost exclusively to the western states, especially the Rocky Mountain belt, and entirely to the economic geology of the metalliferous deposits. He is an authority of international reputation on the genesis of ore deposits. His better-known reports are those

on the gold-quartz district of California, gold and silver mines of Idaho, copper deposits of Arizona, the survey of the Cripple Creek district, Colo.; and his latest work, on the tertiary placer gravel of the Sierra Nevada in California. Besides some 50 geological survey reports, the new chief geologist is the author of some sixty technical papers on economic geology and ore genesis published in various journals.

Since 1907, Doctor Lindgren has had charge of the geological survey corps devoted to the metalliferous deposits, as well as the metals statistics branch of the mineral resources division. The new appointment marks the first entry to the head of the geological survey work, since the pioneer days of King, Hayden and Powell, 30 years ago, of a man whose past interests have been devoted largely to the western states.

## DECIDUOUS FRUITS BREAK RECORDS

Last Year's Shipments by California Fruit Distributors Exceeded by 750 Thirteen-Ton Cars.

Sacramento, Cal., Nov. 20.—At the close of the deciduous fruit season of 1911 Manager F. B. McKevitt of the California Fruit Distributors today stated that the shipments this year, figured on a basis of twelve tons per car, which was last year's minimum, have exceeded those of last year by 750 thirteen-ton cars. The total shipments this season will amount to more than 12,500 carloads, a new record. Apples are not included.

Manager W. C. Walker of the Pacific Fruit Exchange states that the gross returns to the growers amounted to about \$5,500,000, from which the freight and marketing charges \$3,500,000 must be deducted. The dried fruit shipments have also been very large and the profits immense.

## SHIPS THROUGH IN 1912.

Panama Will Not Wait for the Official Opening.

New Orleans, Nov. 20.—Vessels will be allowed to pass through the Panama canal before the official date of the opening of the canal, which has been set for January 1, 1915.

That information is contained in a letter received today by L. E. Bentley, chairman of the progressive union committee on immigration, steamship and rail service from Major F. C. Boggs of the United States corps of engineers at Washington. Major Boggs says:

"I am directed by the secretary of war to inform you that, while the official date of the opening of the canal has been set for January 1, 1915, it is the intention to allow vessels to utilize the canal just as soon as practicable.

"Present indications seem to bear out the opinion previously expressed by the chairman and chief engineer of the isthmian canal commission that this can be accomplished in the latter half of 1912, although it is too far in advance to fix any definite date. Shipping interests will, however, be advised as soon as the commission feels assured that vessels can be passed without unnecessary delay."

There is little danger from a cold or from an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all druggists.

"You will excuse me, madam," said little links to the fair lady at the reception, "but really I didn't catch your name."

"How funny," said the lady. "It's Fash."—Harpers Weekly.

## PROHIBITIONISTS MAY RUN ON STATE TICKET

Phoenix, Ariz., Nov. 20.—Maybe there will be another ticket on the big ballot that will be voted at the general election on December 12. Petitions are being circulated about the state in the interests of state officers on the Prohibitionist ticket. If the required number of signatures are obtained there will be four instead of three tickets in the field—Democratic, Republican, Socialist and Prohibitionist.

Here is the personnel of the Prohibitionist state ticket: Governor, P. W. Otis of Prescott; representative to congress, E. W. Chaffin of Tucson; secretary of state, Roy Sibbey of Cotton Creek; state treasurer, E. E. Windes of Tempe; state auditor, C. E. Collins of Kingman; attorney general, O. Gibson of Tombstone; superintendent of public instruction, Dr. W. W. Watkins of Phoenix.

So far the prohibitionists have put forward no candidates for United States senators, judges of the supreme court or corporation commissioners. Neither have any county tickets been put up. It is said, however, that the prohibitionists may conclude to name a full county ticket in Maricopa.

## MILLIONS SPENT ON ROADS IN SOUTH

New Mexico Lags Far Behind in Amounts of Money Donated to Building of Highways; Texas Leads With \$7,000,000.

Washington, Nov. 18.—Nearly 44 million dollars has been spent in road improvement by the southern states alone in the present year, according to Secretary Wilson. This enormous total is made up by expenditures in the various states as follows: Alabama, \$3,404,000; Arkansas, \$2,450,000; Florida, \$1,500,000; Georgia, 1-2 million dollars; Kentucky 2 1-2 million dollars; Louisiana, \$1,132,354; Maryland, 2 1-4 million dollars; Mississippi, \$2,180,000; North Carolina, \$4,505,000; Oklahoma, \$1,505,000; South Carolina \$1,100,000; Tennessee, \$2,300,000; Texas \$7,000,000; Virginia, \$4,004,000 and West Virginia \$1,025,000.

## ONE CUB REPORTER RUNS THE PAPER

Forty-Seven Bosses Too Many, Says the Staff, and Resign in a Body, One Lonesome Cub at the Helm.

Joplin, Mo., Nov. 20.—The entire editorial and reporter staff of the Joplin Morning Tribune, Joplin's new paper, resigned in a body early this morning, because the forty-seven stockholders scattered over Joplin, constituted too many "bosses."

A former cub reporter accepted the position of city editor, and is the entire staff.

The question of wages did not enter into consideration when the newspaper men went on strike, they say.

"We walked out because of the interference of the stockholders," said one, "forty-seven bosses were too many."

Irregular bowel movements lead to chronic constipation and a constipated habit saps the system with impurities. BERING'S is a great bowel regulator. It purifies the system, vitalizes the blood and puts the digestive organs in fine vigorous condition. Price 50c. Sold by all druggists.
